Service Description

Located in the heart of the Madison community, Anesis Therapy stands out for its commitment to providing mental health services that deeply support structural inclusivity. Our multidisciplinary team of therapists possesses a wealth of life and clinical experiences, insight, and community expertise, which contribute to fostering empathy and understanding throughout every facet of our practice.

At Anesis Therapy, warmth, positive regard, deep therapeutic connections, and representation serve as the foundation of our services. We champion the power of individual stories and create a safe space for sharing them, sparking the healing process.

As systems therapists and mental health professionals, we address problems by considering the social, political, and cultural storylines that shape our self-perceptions and personal narratives. Our approach extends to family therapy, where we strive to transform the family system instead of solely focusing on specific members.

Our expertise encompasses a wide range of therapies and interventions, including:

- Trauma-focused Cognitive Behavioral Therapy for youth
- Brainspotting
- Substance abuse counseling
- Child Parent Psychotherapy
- EMDR
- ACT Parenting
- Cultural and linguistic specific services for racially and diverse family structures

Emphasizing client participation in the therapeutic process, we recognize that individuals are our most valuable resource for resolving inner and circumstantial conflicts. Our philosophy centers on the idea that the person is not the problem, the problem is the problem.

Anesis Therapy's mission is to guide people through mental health and wellness aspects of life in a way that honors culture, family, community, and faith.

<p>Service Description</p> <p>Orion Family Services is a private, nonprofit organization which serves children, adolescents and families throughout Wisconsin. Orion's programs are dedicated to providing compassionate treatment services to troubled children and their families. Services include outpatient and in-home individual and family therapy to children, adolescents and families as well as a range of other critical outreach services, such as Service Facilitation and Individual Skills Development.</p> <p>The Orion Intensive In-Home Family Therapy Program is designed for treatment of children and adolescents experiencing severe emotional, behavioral, and social difficulties within their home, school or community. Including families in treatment when working with children and adolescents is an approach that improves individual and family functioning. Although the identified client is the child or adolescent, the program's focus includes treatment that supports the family in resolving their difficulties. The philosophy of the program is that everyone in the family is responsible, but no one is to blame. Treatment emphasis is placed up on enhancing family strengths and supporting positive changes in the family system, in order to improve the overall functioning of the child. Therapists work with families to increase family cohesion and effective communication, and to create a supportive family environment where negative behaviors are reduced and positive behaviors increased. Parenting skills education is incorporated in treatment in either a formal curriculum-based approach (through out Parent Skill-Builder Program) or informally as needed. For families impacted by trauma, we help healing occur through the use of trauma-informed treatment approaches such as Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT). Orion has clinicians that have obtained advanced training in the utilization of this evidence-based and highly effective model for resolving trauma and reducing resultant emotional, behavioral, and interpersonal issues.</p>

Service Description

SOAR Case Management, Inc. is a consumer operated non-profit, recovery based provider of community mental health services. SOAR was founded in 1997 on the belief that mental health consumers can and will recover if they are given the tools to become self-sufficient and follow their hopes and dreams. SOAR's mission is to assist consumers in developing their capabilities, talents, and aspirations in a culturally responsive, trauma-informed, and recovery oriented manner. SOAR's approach to case management has always put a strong emphasis on peer support as a primary component of the service delivery continuum. Currently the majority of SOAR's staff identify as mental health consumers. Furthermore, 100% of SOAR's Board of Directors identify as mental health consumers. This in-depth understanding of the mental health and substance use systems, both from a consumer and clinician stance, ensures that consumers at SOAR remain the drivers of their own treatment and recovery.

SOAR Programs:

Case Management: At its core, SOAR's Service Facilitation services rely on the principles of self-determination, autonomy, empowerment, respect, and collaboration to tailor individualized community based treatment for adults living with mental health and substance use issues. Our solution-focused, holistic approach to case management puts consumers first and understands that each person is the "expert" of their own experience. Our case managers seek to understand the unique life experiences, successes, and challenges of each consumer and work in a culturally responsive, trauma informed manner with consumers on their recovery journey. Service Facilitators work to coordinate and provide a wide array of office and community based services including:

- Housing Support/Assistance
- Crisis Management
- SSA Benefit Management
- Psychiatry Referral/Coordination
- Physical/Dental Health Needs
- Individual and Group Therapy/Counseling Services
- Medication Management
- Peer Support Services
- Daily Living Skills
- Money Management

Psychiatry Clinic: SOAR's DHS CH. 35 Outpatient Psychiatry Clinic provides prescriber services to individuals in Madison and the surrounding Dane County Area who are living with mental illness and/or substance use concerns and are either enrolled in CCS or who have Medicaid (MA or MA with Care WI or iCare HMO's). Our Psychiatrist works directly with our consumers and their case managers in a collaborative, holistic manner to work to find creative solutions to individual challenges and concerns. Within our prescriber services SOAR offers medication management, diagnostic/psychiatric evaluations, and psychotherapy. Additionally, consumers have access to RN services including lab monitoring, medication assistance/administration, and basic physical health monitoring.

Recovery Dane: Recovery Dane provides community based Certified Peer Specialist services in one-on-one or groups settings. Our Wisconsin certified peers have the ability to lend unique insights and support to consumers living with mental illness and substance use concerns. SOAR sees Peers as an integral part of consumers treatment team during their recovery journey. Recovery Dane offers peers who are bilingual in Spanish and English as well as a peer who publically identifies as transgender.

Peer Lead Groups: Recovery Dane and Solstice House peers also facilitate multiple weekly groups including Coping with Anxiety and Depression, Hearing Voices, Writing your Way to Wellness, Radiance--peer support for transgender and non-binary people seeking mental health support, and are currently developing new offerings.

Solstice House: Solstice House opened in 2015 and is one of the three original Peer Run Respite in Wisconsin. Solstice House aims to provide a stable and supportive home-like environment run by, and for, individuals with lived experiences of mental health and/or substance use concerns. It provides short-term, residential support for individuals who may be experiencing an increase in symptoms or life stressors who are in need of support and services to aid in their overall recovery and wellness. Solstice House also offers a "Warm line" service to any Wisconsin Resident in need of telephonic or Zoom based peer support services. Warmline will be changing in 2022/23 with the implementation of the Statewide Warmline, in which Solstice House has played an integral part of planning and will provide services within.

SOAR is working toward physical health monitoring as defined in the CCS service array with a focus on education for management of physical health conditions exacerbated by mental illness. We plan to employ a part-time RN for the purpose of providing training and assistance to the CCS consumer to identify symptoms of physical health conditions, monitoring of physical health medications and treatments, and the development of skills related to monitoring and management of physical health concerns with the consumer and family members as identified by the consumer.
