**Service Description**

Located in the heart of the Madison community, Anesis Therapy stands out for its commitment to providing mental health services that deeply support structural inclusivity. Our multidisciplinary team of therapists possesses a wealth of life and clinical experiences, insight, and community expertise, which contribute to fostering empathy and understanding throughout every facet of our practice.

At Anesis Therapy, warmth, positive regard, deep therapeutic connections, and representation serve as the foundation of our services. We champion the power of individual stories and create a safe space for sharing them, sparking the healing process.

As systems therapists and mental health professionals, we address problems by considering the social, political, and cultural storylines that shape our self-perceptions and personal narratives. Our approach extends to family therapy, where we strive to transform the family system instead of solely focusing on specific members.

Our expertise encompasses a wide range of therapies and interventions, including:

- Trauma-focused Cognitive Behavioral Therapy for youth
- Brainspotting
- Substance abuse counseling
- Child Parent Psychotherapy
- EMDR
- ACT Parenting
- Cultural and linguistic specific services for racially and diverse family structures

Emphasizing client participation in the therapeutic process, we recognize that individuals are our most valuable resource for resolving inner and circumstantial conflicts. Our philosophy centers on the idea that the person is not the problem, the problem is the problem.

Anesis Therapy's mission is to guide people through mental health and wellness aspects of life in a way that honors culture, family, community, and faith.

<p><b>Service Description</b></p> <p>Orion Family Services is a private, nonprofit organization which serves children, adolescents and families throughout Wisconsin. Orion's programs are dedicated to providing compassionate treatment services to troubled children and their families. Services include outpatient and in-home individual and family therapy to children, adolescents and families as well as a range of other critical outreach services, such as Service Facilitation and Individual Skills Development.</p> <p>The Orion Intensive In-Home Family Therapy Program is designed for treatment of children and adolescents experiencing severe emotional, behavioral, and social difficulties within their home, school or community. Including families in treatment when working with children and adolescents is an approach that improves individual and family functioning. Although the identified client is the child or adolescent, the program's focus includes treatment that supports the family in resolving their difficulties. The philosophy of the program is that everyone in the family is responsible, but no one is to blame. Treatment emphasis is placed up on enhancing family strengths and supporting positive changes in the family system, in order to improve the overall functioning of the child. Therapists work with families to increase family cohesion and effective communication, and to create a supportive family environment where negative behaviors are reduced and positive behaviors increased. Parenting skills education is incorporated in treatment in either a formal curriculum-based approach (through out Parent Skill-Builder Program) or informally as needed. For families impacted by trauma, we help healing occur through the use of trauma-informed treatment approaches such as Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT). Orion has clinicians that have obtained advanced training in the utilization of this evidence-based and highly effective model for resolving trauma and reducing resultant emotional, behavioral, and interpersonal issues.</p>
